### CAREER OBJECTIVE

---

Experiencing my overwhelming journey, I aim to reach the vision and then I try to re-frame myself continuously. By undergoing new challenges, I quest to be an Iron professional. Besides, I wish to leverage my skills of business analysis, product management, and agility. I desire to utilize my expertise to deliver innovative and efficient solutions. I knee on enriching my foundation in software engineering, Business/System analysis, decision-making, and cross-functional team leadership. With the revolving time, I want to equip my technical and managerial skills, tackle new challenges, and contribute outstandingly to the success of my owning organizations in the era of dynamic industries.

### CAREER SUMMARY

---

I would like to introduce myself as a self-motivated, passionate, enthusiastic, IT professional having over three years of experience in business analysis, product management, and project coordination. During the whole career journey, I have tried to expert-ise myself in requirement gathering, process modeling, process refinement, technology analysis, compatibility analysis, system design, delivery management, and quality assurance, focusing on delivering user-centric solutions. Throughout my career, I have successfully delivered several successful projects and collaborated with various cross-functional teams in dynamic environments.

Currently, I'm working as lead Sr. Business Analyst at Prime Tech Solutions Ltd. where I usually play multiple roles according to the team's nature and needs. Besides, I actively conduct project planning, business/system analysis, business/system processes optimization, user acceptance testing/quality assurance, resource allocation, delivery channeling, and ensuring alignment with business objectives by stakeholder engagement.

Previously, I got opportunities to play similar roles with my diverse skill set at organizations like Doodle Inc., Syntech Solution Ltd., MysoftHeaven BD Ltd, and a few others where I contributed to system analysis & design, project documentation, and Agile implementation. I have tried to equip myself with the knowledge of advance tools like JIRA, Figma, MS Visio, and Some Others. I'm continuously trying to learn and enrich my understanding of software development life cycle, Agile methodology (Scrum Framework), and other required keys. I am committed to continuous learning and applying my skills to deliver impactful, innovative solutions in technology-driven industries.

## EDUCATION

---

2016 – 2020

## BSc. in Software Engineering

Department of Software Engineering,

Faculty Science Information and Technology, Daffodil International University

- Degree Description :  
Introduction to software, Computer Fundamentals, (C, JAVA, PHP, C#) Programming, Mathematics, Statistics & Probabilities, Software Security, Artificial Intelligence, Data Structure, Software Testing, Operating System, Database, Computer Algorithms, Networking, Computer Architecture & Organization, Data Communication, Cyber Laws, Principle of Accounting, Discrete Mathematics, Numerical Analysis, and so on.
- Thesis :  
Automated Detection of Security Misconfiguration and Sensitive Data Exposure.
- CGPA: 3.50 out of 4.00

2012 – 2014

## Higher Secondary Certificate (HSC)

Rajshahi Govt. City College, Rajshahi Board

- Background : Science
- CGPA : 4.60 out of 5.00

2010 – 2012

## Secondary School Certificate (SSC)

Maskatadighi High School, Rajshahi Board

- Background : Science
- CGPA : 5.00 out of 5.00

### PROFESSIONAL SKILLS

---

**Project Management Concept** #Application Life management(ALM)  
#Software Development Life Cycle(SDLC)  
#Agile Methodology - Scrum framework  
#Agile Methodology - Kanban framework  
#Secure Software Development Life Cycle(SecSDLC)  
#Software Testing Life Cycle(STLC)

**Project Management Tools** #JIRA

**Programming Language** #Javascript

**Web Technologies** #Bootstrap  
#HTML5  
#PHP

**Database Management Skills** #Payload/Query  
#Query Optimisation

**Relational Database Management System(RDBMS)** #MSSQL  
#MYSQL

**Software Quality Assurance** #Network Diagnosis  
#Finding Bugs and Errors  
#Root Cause Analysis  
#Tracking Bugs  
#Test Case Preparation  
#Bug Reporting

**Document Preparation Technology** #Latex  
#Google Docs  
#MS Word

**Designing/Prototyping Tools** #Figma.  
#MS Visio(2016).  
#Lucid chart (online).  
#Draw.io (online/offline)

**Microsoft Office Package** #MS Word  
#MS Power Point  
#MS Excel

### PERSONAL SKILLS

---

**Languages** English language – Moderate proficiency  
• Fluent in speaking, Decent in reading and writing.  
Bangla language – Native  
• Fluent in speaking, Decent in reading and writing.

**X-Factors** #Multiple Cross-Functional Team Manager  
#Adaptive Survivor  
#Creative Thinker  
#Enthusiastic Researcher  
#Team Player  
#Early Learner

## PROJECTS

---

### 2024-2025 **SQTC Management System For BCC**

SQTC Management System is designed to develop a mechanism for efficient seamless testing. It has features like, user registration & approval, testing request and approval, meeting management, agreement management, payment calculation and, document management, sign documents using e-sign, task management, import data from Bugzilla, create bug report and authorization, bug report sending to client and inform testing status to notify all parties using e-mail and system. Online/offline payment and reconciliation. Testing certification and certificate verification.

#Link:<http://43.229.14.105:90/>

### 2023-2024 **DMS Web App,Banglalink**

Distributor Management System (DMS) is the most effective system for managing Sales Channels of Banglalink. It is being used for Cluster Market Concept, Automated triggers In Notification section, Bulk upload feature, Smart Search, EV balance return option, Retailer database, weekly updated generate report, Distributor stock floor report, Site wise KPI report, etc.

- 2022 Integrated Digital Service Delivery Platform, Ministry of Commerce**  
 Ministry of Commerce, in the interest of enriching and consolidating the national economy, encourages Bangladeshi exporters and entrepreneurs to develop, Increase and expand the nature and quantity of export trade. In view of this, all the individuals, institutions, and organizations who have made a significant contribution to increasing the exports of Bangladesh are awarded at the appropriate national level. An automated system is being developed to modernize, simplify and streamline these incentive activities so that exporters and businessmen can easily participate in the awarding of these appropriate National awards and the Ministry of Commerce can easily monitor and manage them.  
 #Link: <http://services.mincom.gov.bd/portal/home>
- 2022 Integrated Digital Service Delivery Platform, Ministry of Agriculture**  
 Ministry of Agriculture has taken initiatives in the interest of enriching access to government services and ensuring emergency responses from the agencies involved, With that view, this component is aiming to make the Crop Pest Museum available to everyone not only across the country but also around the world with enriched facilities. The overall objective is to reduce the beneficiary's time and cost of a visit to the museum. Additionally, maintaining the resources with limited effort, money and place were the secondary objectives of this digital service. Thus it enhances the linkage between education, research, and extension to endow agriculture service delivery system.  
 #Link: <http://service.moa.gov.bd/portal>
- 2021 Virtual Executive Court System**  
 a second-generation e-service integration platform by forming an interoperable ICT backbone for Executive Court and General Certificate Court, the system will play an integrated approach where the focus area would be virtual case procedures, information exchange between citizens and magistracy, monitoring, and access to the progress of cases, archives and proceedings in different types of executive courts and General Certificate Court to address access to magistrate irrespective of internal procedure complexity. A web based Virtual Executive Court System (VECS) will be developed which will be accessible form any platform or browser, from where General certificate cases and several criminal cases (in Executive Magistrates Jurisdiction) will be filed, processed and archived.
